Objective

Seeking a software development role where I can leverage my expertise and passion while contributing to bigger projects. Committed to delivering high-quality solutions and collaborating with teams to create impactful results in a oriented environment.

Skills & abilities

Proficient in a variety of languages such as Typescript, JavaScript, Java, and Swift. I also have experience using modern frameworks such as Angular and React. I've also used technologies like MySQL and server-side languages such as Node.js and PHP. I also excel in UI/UX design providing users with the best experience possible.

Experience

H2M STAGING – INVENTORY MANAGEMENT SYSTEM

Full-stack Web Development Project | December 2023 – April 2024

- Develop a responsive, user-friendly application using Angular Material while providing prototypes built in Figma.
- Front-end development using Angular as our framework of choice.
- Develop an API using technologies such as NodeJS, ExpressJS, Sequelize, and MySQL to allow the front end to send and receive data for warehouse's inventory as well as staged homes, including realtor and address information.
- Leading a team of 3, creating a detailed Work Breakdown Structure on Microsoft Project to keep everyone on track.

IMAGINE CINEMAS

Assistant Manager | May 2021 – Present

- Leading and managing a team while working effectively and cooperatively.
- Demonstrate strong communication, organization, management and leadership skills to lead a theatre team in a positive environment.
- Working effectively in fast-paced environments.

Education

SAINT CLAIR COLLEGE

Windsor, ON | Advanced Diploma – Mobile Applications Development

- Develop, test, and deploy a variety of native mobile applications for multiple platforms and devices.
- Design, model, implement and maintain databases for both web based and mobile applications.
